

## **School Council meeting 13/02/2018 – 2.30pm**

Present – Staff- Miss Appleton, Mrs Tolley, Mrs Kelly

Students- Sean P, Courtney W, Adam, Zafran, Meghan, Matthew, Hamza

### **Purpose of meeting**

#### **To look at Mrs Hunters response to last weeks meeting**

Mrs Hunter has asked that some research is done into headphones before any are purchased. She wants to know if lots of cheap headphones would be best or a few pairs of the more expensive ones.

Meghan stated that if we got cheap ones they are going to break, Courtney agreed saying that expensive ones would be better. Although most students have their own headphones at home Sean stated that they couldn't bring them into school every day in case they got lost or broken. Everyone agreed that the more expensive option would be the best.

I explained that it was headphones and not earphones that they needed to look for. When questioned as to why earphones would not be suitable Zafran said that the small ones fall out of your ears. When I asked Hamza if he would put something into his ear if it had been in someone else's ear he said no, when questioned why not, Zafran stated that they could get germs on them. Courtney said that the headphones would need to be kept clean. Adam took a copy of the email from Mrs Hunter and said that he is going to research and get a price for some headphones to be purchased.

Next Ms Epstein had asked the council to look at a range of recycling bins. The bins are to be located at both sites and she wanted to know which style the school council thought would be most suitable. After reading through the information provided and looking at pictures the council agreed that the 'safety shop' products would be best. This is because they are on wheels and also stack on top of each other to save space. This information has been fed back to Ms Epstein who will be getting some ordered.

Oak class were asked if they had brought an item to be discussed, Courtney stated that Miss Rolinson wanted a disco. She could not remember when the disco is proposed to be held so more information is to be gathered regarding this and it will be discussed at the next meeting.

Meeting closed 2.51PM
