

## **School Council meeting 24/04/2018 – 2.30pm**

Present – Staff- Miss Appleton, Mrs Tolley

Students- Callum, Meghan, Danyal, Hamza, Courtney W, Adam, Zafran, Matthew

### **Purpose of meeting**

#### Update

Council members were asked if they could remember the meeting that they had had where the 'pocket money' fund was discussed. A couple said that they could and recalled that the money was to be used to purchase magazines to be kept in Willow. Members were informed that the previous week a group of students had indeed purchased some magazines, I pointed out where they are located and Meghan stated that during her work experience on Thursday she would be making a label for them so that they are easy to find. More magazines are to be purchased on a weekly basis up until half term ensuring that there will be a wide range to suit all interests.

I then asked members what we discussed at last week's meeting, Courtney immediately said the Royal Wedding. I then asked if they had all produced a flyer/invitation as requested at the last meeting to inform their peers of the details of the celebration. Nobody had done this so I suggested that they went back to class and used the remainder of the afternoon to produce these.

Mr Alma had joined the meeting at this point as he wanted to ask if the members thought that having some lower basketball hoops in the sports hall would be of any benefit as most students enjoy playing basketball but not all of them are able to access the current hoops as they are too high up. All members agreed that they thought it would be a great idea as then everyone would be able to play together if they wanted to. I said I would follow this matter up for him and asked the members who they thought I should speak to regarding it. Zafran thought Mrs Hunter would be the best person, when asked for any other suggestions Adam said Miss Colbourne and Hamza suggested Miss Price.

Following the meeting I liaised with Miss Price who informed me that there are some more basketball hoops that can be attached to four different points around the sports hall. These need to be screwed on for use and must be removed after every session. She told me where they are stored. I have passed all this information onto Mr Alma who is going to look into facilitating the use of them.

Meeting closed 2.52PM
