This half term's topic is:

'Bright Lights Big City'

Key Words

Light, switch, circuit, bright, to draw, photograph, Town, money, donate, bread

Visits Out

Our key focus this term will be features of a city, we will at least visit a town. We'll include at least one trip to a charity shop and we have arranged the visit the food bank. Blue Class will enjoy a weekly visit to Forest School.

Science

We will be identifying things that use electricity and batteries. We'll learn about positive and negative so we can make a circuit. This will help us understand the right and wrong way for batteries to be inserted.

Humanities

'Caring for Others' will be our focus. Learning about the Good Samaritan from the Bible and how we can help in the community will be important, along with how different religions also help people

Technology/Art

Food Technology: Bread and Dough will involve yeast based mixtures, we expect the pupils to enjoy making Pizzas at some point

Art: Graffiti art - based on 'Banksy', it could get messy!! Please feel welcome to send in an old shirt to cover up school uniform— sometimes an apron isn't enough !

PSHE

Our focus in PSHE is 'money matters'. The pupils will be investigating what the food bank does, deciding what they can do to help and working towards that goal. Be prepared to part with either food, belongings or money!!

Home learning

Look for examples of graffiti when you're out and about—send us some photos
We're happy to sample anything in school that the children have baked at home— why not have a go at some bread—its therapeutic!!

On line—take a look at the websites of different charities, some have 'safe' activities.
We are keen to hear about how pupils engage with each topic at home. Please send notes and photographs into school
