This half term's topic is:

'Up, Up and Away

Key Words

Car, hot air balloon, helicopter, aeroplane, town, bright, push, pull, soup, salad.

Visits Out

As well as our usual visits we'll be visiting different supermarkets looking for the FairTrade logo and we'll be going to Bobbington to look at the different aircraft. Red Class will enjoy a weekly visit to Forest School.

Science

We will be exploring the forces of push and pull both in and out of the class. We'll be investigating fast slow and stop within the concept of push and pull. And then more complex types of push and pull like squeeze and twist

Humanities

Barnaby Bear will be travelling around the world , we'll make a passport and join in with some role-play activities as well as investigating what its like to visit different countries. There will be chance to do one of our favourite things—taste different foods.

Technology/Art

Food Technology: Soups and salads, hopefully we'll move out of our comfort zone by making a cold soup and different types of salad like couscous

Art: we'll be painting with 'tyres' from vehicles and designing and making a hot air balloon -fingers crossed they'll be ready to fly high by the end of term.

PSHE

Our focus in PSHE is 'Fairtrade' food which will surely be popular with the pupils when they get to have a taste. But we'll also look at the back story to Fairtrade so the pupils will understand the importance of buying Fairtrade

Home learning

Look for seasonal vegetables to make a soup or salad—you might even want to grow your own herbs to flavour your dishes.

See if you can identify the Fairtrade logo on packets when you go shopping.

We are keen to hear about how pupils engage with each topic at home. Please send notes and photographs into school
