This half term's topic is:

'Under the Ocean'

Key Words

Sea, fish, water, world, float, sink, pull, push, donate, money, charity

Community Engagement

We'll be visiting pet shops and garden centres to see the under-water creatures, along with our usual our community engagement visits to shops, including charity shops. Green Class will enjoy a weekly visit to Forest School.

Physical Development

Throughout the week, in PE, trampolining and Physio sessions, there will be opportunities to use and improve our gross motor skills. Soft Play sessions will be on Tuesday afternoons and this term, Purple and Orange class will take turns to go. We will use our fine motor skills in all of our learning—look out for photos on Facebook!

Expressive Arts

We will be focussing on Music this half term, listening to ocean sounds, playing instruments and learning songs about the sea and sea creatures.

Understanding the World

In Science, we will be learning about pushes and pulls and will experiment to find which objects float and which objects sink. We will be experiencing shaking movements like the ones you might associate with an earthquake

PSED

In PSED, our focus will be exploring money and exchanging money for goods in real-life situations. Towards the end of the half term, we will be taking part in a sponsored activity to raise money for a local charity.

Home learning

Why not put on your waterproof clothes or wellies and splash in some puddles?
Practise your favourite songs about the sea (especially 'Baby Shark!')
Sort out of some of your old toys, books and clothes and take them to your local charity shop.

We are keen to hear about how pupils engage with each topic at home. Please send notes and photographs into school.
