This half term's topic is:

‘Develop our sense of self’

Key Words

Friend, same, different, hear, eat, teeth, mouth, look, know,

Science

We will be exploring ‘Sound, hearing, teeth and eating’. Initially we will be identifying a range of sounds and silence.

The pupils will also be recording and changing sounds.

Then we'll look at our mouth and teeth and how they work together for us to eat.

Technology/Art

Food Technology: we will look at kitchen independence – finding ingredients and utensils and knowing what they are for.

Art: Our focus will be ‘design and fastenings’. We'll be using Velcro and buttons and attempting to make costumes and props.

Community Engagement

Now Covid restrictions have lifted we will be able to visit more destinations – however, in the short term we will continue to make visits to local outdoor facilities- always following relevant Covid risk assessments.

Blue Class will enjoy a weekly visit to the updated Forest School.

Humanities

This term is RE based– ‘what do people around me believe? Our focus is Sikhism. The pupils will be exploring the 5 K's – please be assured we will be looking at the Kirpan fully supervised.

RSE

Our focus is ‘how to be a good friend’ including making friends, similarities and differences and what it's like to be lonely. This is all linked to Article 30 of the UN Convention on the Rights of the Child - ‘the right to own culture, language and religion’

Parental Engagement pm5tothrive

Try listening to different sounds –both indoors and outdoors. Can your child make changes to any sounds? (turning volume up and down on the TV etc)

Help out around the kitchen by finding the utensils needed to prepare meals, then putting them away when they are finished with– have we got any budding Jamie Oliver's out there?

We are keen to hear about how pupils engage with each topic at home. Please send notes and photographs into school
