

Induction Feedback – Ridge 2023

I can ring the Family Outreach mobile and chat to Sue or Sally.

I feel valued and welcomed as a parent.

The induction was tailor made around my son's needs. He has settled in wonderfully and I could not have asked for more.

I am 100% happy with how the induction was handled around my son's needs.

The school have been very welcoming. I have already had help with DLA and Housing.

There is nothing that could have been done to improve the induction process.

It was informative and helpful to understand about the school environment.

It was a very informative induction, but also overwhelming. The school team were great with covering all aspects in the introduction. All questions were clearly answered.
